

Recruiting Personnel Vetting Talent on **USAJOBS**

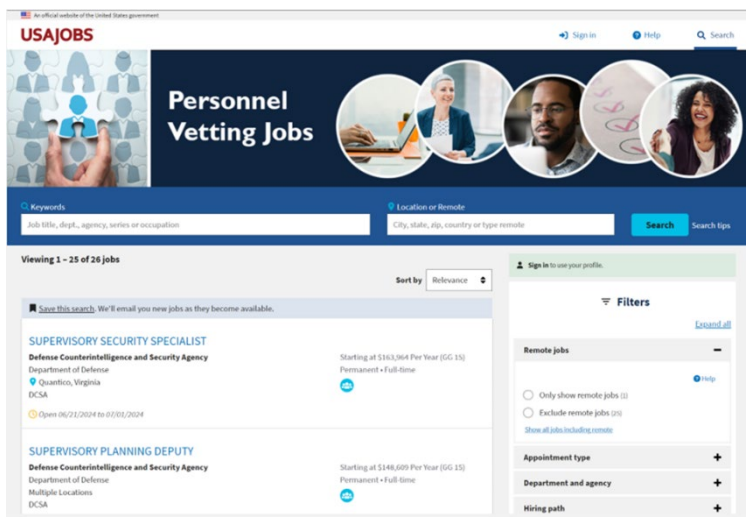

The **Security, Suitability, and Credentialing Performance Accountability Council** is coordinating the “Trusted Workforce 2.0 Initiative” to help Federal agencies recruit and retain a trusted workforce to drive agency mission accomplishment and better deliver services to the American people. As part of this initiative, OPM has created a landing page on USAJOBS called the Personnel Vetting (PV) Portal for applicants to easily access all personnel vetting job opportunities.

What is the USAJOBS PV Portal?

- **USAJOBS** is the Federal Government’s official employment site and serves as the universally recognized “front door” to the Federal hiring process for most agencies.
- **The PV Portal** serves as a place for job seekers to view and apply to personnel vetting job opportunities.
- **Agencies** can use the PV Portal in marketing campaigns to help attract personnel vetting talent and track jobs via USAJOBS reporting capabilities.

Personnel Vetting Jobs

How can agencies post PV jobs on the PV Portal?

- Tag your agency’s job announcements with the new Mission Critical Occupation (MCO) “Personnel Vetting” tag within your Talent Acquisition System.
- Job seekers will see all Federal AI jobs associated with the “Personnel Vetting” MCO tag on the PV Portal.

What jobs should you tag on the PV Portal?

Positions may include:

- Investigator (Special Agent)
- Personnel Security Specialist
- Security Specialist
- Insider Threat Analysts/Specialist
- Insider Threat Program Coordinator
- Polygraph Examiner
- National Security
- Suitability/Fitness Adjudicator
- Personnel Security Assistant
- Security Assistant
- Security Administrator
- Special Security Officer
- Counterintelligence Officer
- Other personnel vetting related positions such as Administrative/ Technical Specialist, Management and Program Analyst
